

a Fluxoid for a circle centered on the vortex with $r = 1 \mu\text{m}$

c $\mu_0 H_z(x, y, z)$ vs. x at $y = 0 \mu\text{m}$, $z = 1 \mu\text{m}$

e $\mu_0 H_z(x, y, z)$ vs. z at $x = y = 0 \mu\text{m}$
